

Wall luminaires

Overview

DESMONDO PRO (small design)

Why was the product developed?

Compact design: accessibility for small indoor and outdoor areas such as corridors, staircases, balconies, pergolas

Proven concept: further development in striking design of the high-performing DESMONDO series

Which problem is solved by the luminaire?

Hybrid requirements: weather resistance meets standard conformity, perfect for partially open areas

No "shadow zones": combines precise lighting on the ground with indirect light upwards thanks to Up&Down technology

Efficient planning: reduces number of luminaires thanks to efficient light distribution with precise lens technology

Product benefits

- + **Repairable:** replaceable LED modules and with lenses in accordance with Zhaga standard
- + **Resistant:** high type of protection and high corrosive resistance
- + **Flexible:** individually usable indoors and outdoors
- + **Fast:** easy to install thanks to plug-and-play plug system
