

Oval bulkhead luminaires

ALU-STANDARD

Why was the product developed?

From tool to classic: born as purely functional work luminaire, finished to perfection from durability and modern LED technology

Genuine design: honest, timeless aesthetics, without false promises

Which problems are solved by the luminaire?

Uncompromising reliability: holds up in scenarios in which standard luminaires fail due to vandalism, dust or moisture

Resistance instead of maintenance: robustness for cellars, industry and outdoor areas which is maintained for centuries

Product benefits

- + **Heavy-duty housing:** high-quality die-cast aluminium for maximum stability
- + **Type of protection champion:** high IP protection against dust and water jets
- + **Resistant: extremely robust glass**
- + **Powerful core:** durable LED technology with classic, timeless optics; MultiLumen and MultiColour
