End caps

LINEDO 50

Why was the product developed?

Uncompromising compactness: development of an extremely slim continuous line solutions, based on the LINEDO formula for success

Maximum flexibility: creates a luminaire only decides on its task flexibly during installation thanks to new MES technology

Simply suitable: designed for simple 1:1 replacement in case of refurbishment

Which problems are solved by the luminaire?

Absolute planning reliability: foolproof performance adjustment per switch on site – also ideal when converting halls

Simplified storage: a reference number replaces countless versions, which significantly simplifies logistics

Extreme time saving: complete unit becomes MultiLumen-capable over one length and in just one step

MES: the appropriate MultiLumen level can be set centrally and conveniently thanks to MultiLumen Easy Select. No need to work on individual luminaires: no climbing, not effort - simply clever!

No space constraints: put an end to bulky installations in narrow corridors or architecturally complex rooms

Product benefits

- + **Light quality without compromise:** 4 light distributions and 5 performance levels, MES technology, new 60° and 90° lenses
- + **Slim design:** only 50 mm overall width for an elegant, discreet design
- + **Ultra-fast installation:** continuous through-wiring for fastest connection
- + **Precision optics:** highly efficient lens technology for perfect light control and high visual comfort
- + **All-in-One:** carrier plate and mounting rail form a unit ready for installation

Available | Prices per linear metre from €79.00

Grid of product specifications:

- Length options: 1500, 3000, 4500
- Color: RAL 9016
- Light distribution options: 32°/74° High Rack narrow, 60° medium, 90° wide, opal diffuse
- Beam spread: 840
- LED life time: 100 000 hours
- LED type: LED
- Life time: 100000 h (L80)
- Lumen output: 14400 - 36000 lm (module length 4500 mm with 100% light)
- Efficiency: Im/W up to 190 lm/W
- Control: MultiLumen EasySelect, DALI, Casambi smart+ free
- Protection: IP40
- Optics: D, Coming soon
- Optics: Bluetooth Mesh
- Mounting: 5 pole, 7 pole
- Origin: Made in Germany
