

Moisture-proof luminaires

PLANOX

Why was the product developed?

Consistent transformation: conversion of traditional diffuser luminaire to the modern LED era

Demand for perfection: development of a solution, which combines maximum robustness with ease of installation which has no equal on the market

Evolution of the wet room luminaire: from robust standard to smart special solution - made by RZB

Which problems are solved by the luminaire?

Time booster: ends stress during installation with radically simplified handling

Works reliably in rough environments: made for long-term use under extreme conditions with dust and high humidity

Product benefits

- + **Speed installation:** generous terminal compartment and simple clip installation
- + **Extreme robustness:** high IP type of protection and impact resistance (IK rating)
- + **Installation-friendly:** variable cable insertion (on face or rear side) and tool-free components
- + **Many functions:** Multi-Lumen, sensor versions and versions of emergency lighting - ideal for industrial applications
