

## Pole top luminaires

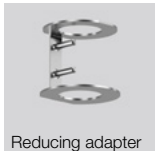

### Overview

Wall mounting

### Accessories

Reducing adapter

## BSX 120

### Why was the product developed?

**Addition to the range:** targeted extension of the portfolio

**Cost efficiency:** economical solution for projects with high budget orientation

### Which problems are solved by the luminaire?

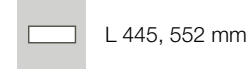

**Response to high cost pressure:** enables professional lighting standards even in case of tight investment limits

**Long-term relief:** lowers operating costs with state-of-the-art, low-maintenance LED technology

### Product benefits

- + **Robust material:** housing made of top quality die-cast aluminium
- + **Universal adapter:** suitable for spigots of 42-76 mm, interchangeable between pole-top and side-entry without dismounting
- + **Simple installation:** factory-wired and ready to connect
- + **Flexible adjustment:** multi-stage lockable tilt
