chintz colour fan

## FLATLINER 2

### Why was the product developed?

**Update:** successor of the FLATLINER series in line with market conditions

**Design:** modular "eye-catcher" made of finest chintz fabric and state-of-the-art technology with unique architectural presence

**Flexibility:** maximisation of creative freedom in planning

### Which problem is solved by the luminaire?

**Flexibility booster:** replaces rigid illumination scenarios through full adaptability with MultiLumen and MultiColour.

**Noise killer:** optimises room acoustics directly via the luminaire design

**Installation champion:** reduces the time required thanks to installation without tools and practical positioning aid

### Product benefits

- + **Variety of colours:** more than 40 different shade colours available
- + **Future-proof:** modular design with individually replaceable components
- + **Plug-and-Play:** fast connection with a simple plug system
- + **Material quality:** durable, homogeneous light quality thanks to PMMA without yellowing and UV-stable polycarbonate
