

## Hand-held safety floodlight

## TAMIO

### Why was the product developed?

**Designed for emergencies:** mobile emergency luminaire in case of power outage

### Which problems are solved by the luminaire?

**Use without limitations:** flexible thanks to versatile installation options (also magnetic)

**Light with focus:** targeted direction of the light to the place to be illuminated

### Product benefits

- + **Maximum flexibility:** five operating modes for any application scenario
- + **Easy to understand:** intuitive colour display
- + **Extremely durable:** thanks to LiFePo battery
- + **Striking design:** noticeable instantly as emergency luminaire due to distinctive green-black colour scheme
