

Moisture-proof luminaires

PLANOX PRO 2

Why was the product developed?

Longevity: born out of passion for real recycling economy - the end of throwaway mentality through consistent dismountability

New standards: consistent optimisation of the proven system for installation at lightning speed

Which problems are solved by the luminaire?

Put an end to frustrating installations: revolutionary connection system ends the fight against the clock with regard to installation

Killer of energy costs: major jump in efficiency makes high operating costs be a thing of the past

Put an end to the throwaway culture: thanks to modular design, components can be easily replaced instead of disposing of the whole luminaire

Installation-friendly: easy installation due to removable plug connection and lock fastener on both sides

Product benefits

- + **Maximum efficiency:** significantly improved efficacy up to 182 lm/W
- + **Easy to install:** thanks to removable plug terminal & 5-pin through-wiring
- + **Modularity:** all components can be easily dismantled for service and recycling
- + **High-end protection:** maximum resistance for demanding environments
- + **Adaptable:** with the EXEO X component, the PLANOX PRO becomes a self-contained emergency luminaire in no time
