# 360° LIGHT COMPETENCE

RZB - YOUR PARTNER  
WITH A COMPREHENSIVE VIEW

For more than 80 years the company RZB Rudolf Zimmermann, Bamberg GmbH, an all rounder for luminaires and light, has been truly known for highly efficient products and excellent light quality "Made in Germany". As a family business, we offer continuity, sustainability and long-term partnerships. Today our broad portfolio consisting of indoor, outdoor and emergency luminaires as well as light management systems comprises more than 30,000 products.

Our customers and partners demonstrably benefit from significant energy savings, lower operating costs, long-term planning security and short payback periods applying lighting solutions that are precisely tailored to their individual requirements.

RZB Rudolph Zimmermann, Bamberg GmbH

# ALL LIGHT

## From one single source

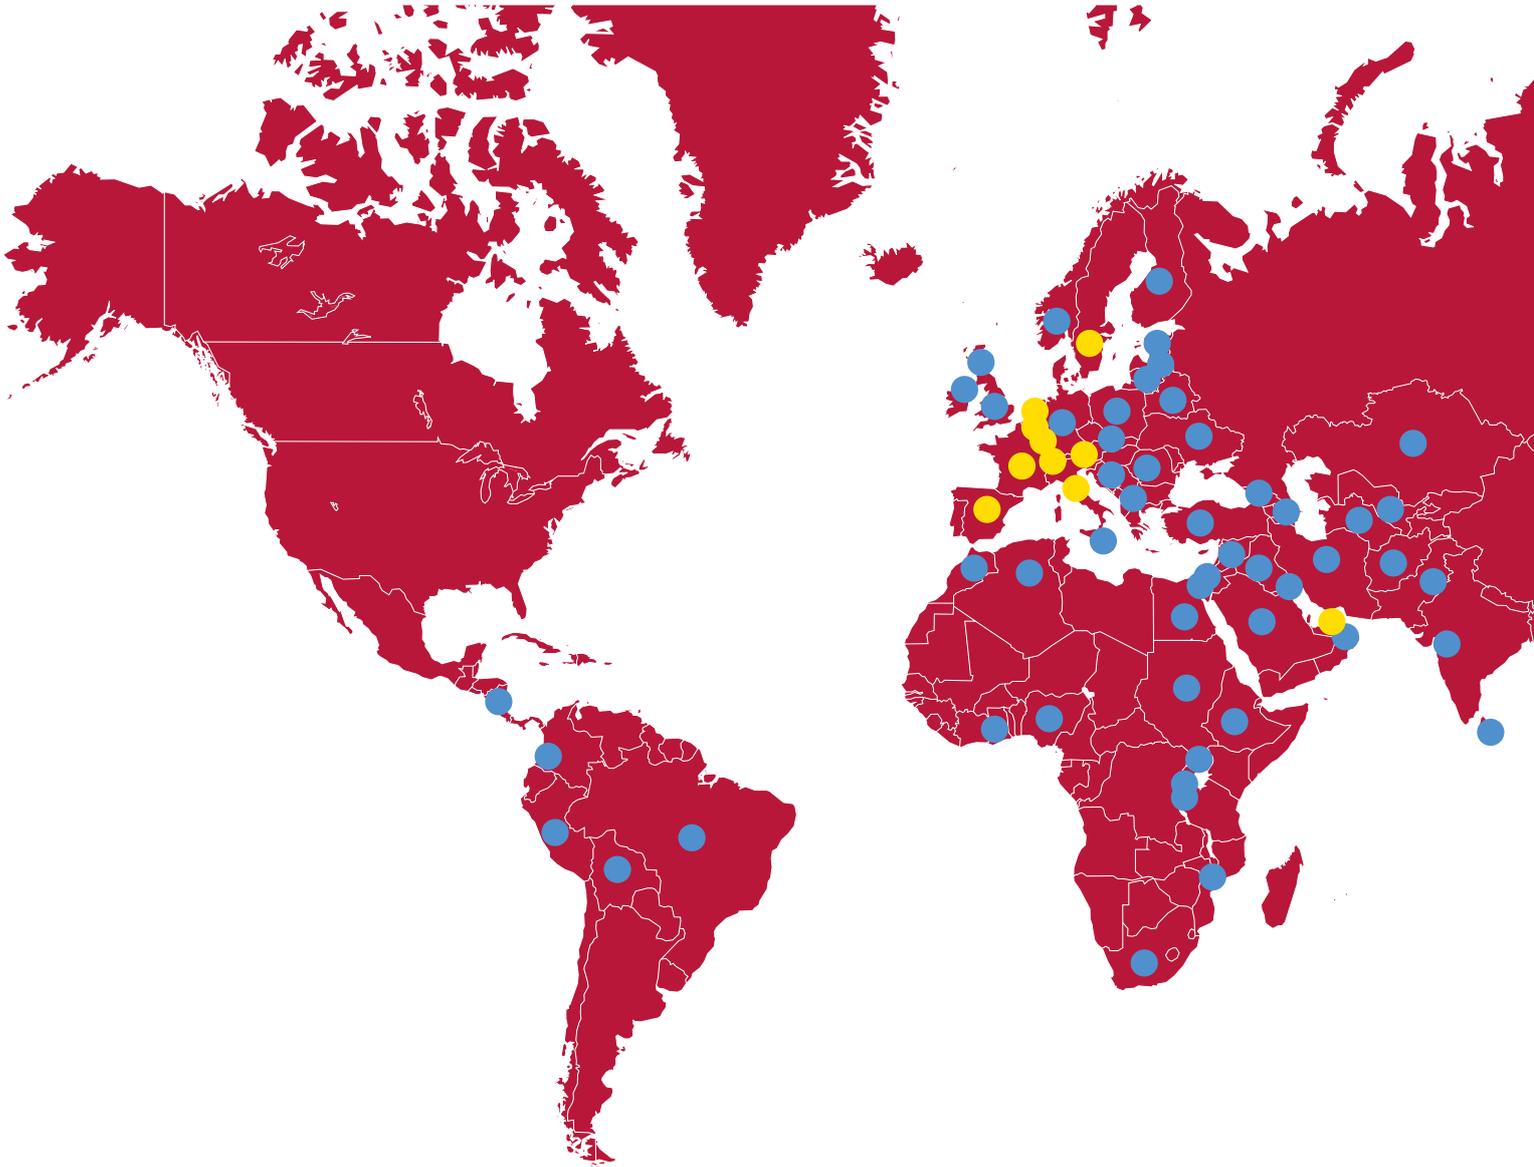

SONLUX Lighting GmbH

In the rapidly changing world of light we have provided constantly exemplary solutions based on our guiding principles “Smart Technology” and “Excellent Design” and have repeatedly been awarded the TOP 100 title for above-average innovative success.

For our design work we received already more than 80 internationally renowned design awards. Our core competencies consist of our in-house product development, production and quality assurance in certified testing laboratories at our Bamberg site. This is how we ensure the uncompromising quality of our products. More than 660 employees are dedicated to do their share every day in the big task: of having a decisive influence on the future of light.

Non-profit public foundation with legal capacity under civil law based in Bamberg

- Subsidiary/company
- Representation/sales activity

# RZB GROUP

The RZB Group includes RZB Lighting, based in Bamberg, and the independent sister company SONLUX Lighting GmbH, in Sondershausen.

In addition to a qualified team of around 70 lighting experts in the DACH sales region, international sales are made in over 70 countries through our own sales offices in Europe, Dubai and Malaysia, among others, and through trade partners worldwide.

# TOP QUALITY OF PRODUCTS AND SUPPORT

**For a noticeable added value.**

## ⊕ EFFICIENCY

A deliberate and considerate handling of scarce resources is any company's task and challenge. Whether you are optimising power consumption in existing or new buildings: lighting systems by RZB are smart, digital and efficient. Further potential savings can be achieved with control modules already integrated in luminaires or by using professional light management systems.

- ✓ Lower energy costs
- ✓ Fewer CO<sub>2</sub> emissions
- ✓ Reduced maintenance costs

## ⊕ MOTIVATION

Light quality is a decisive contribution to people's wellbeing and provides for a stimulating and motivating environment. Biodynamic lighting by RZB focuses on the human being and allows you to individually design the ambience or simulate the natural changes in daylight during the day. Standard-compliant lighting reduces glare at the workplace and ensures efficient work.

- ✓ Increased satisfaction of employees
- ✓ Individual arrangement of colour temperature and light intensity
- ✓ Boost of creativity and performance

## ⊕ FLEXIBILITY

Constantly changing living spaces and working environments require modern lighting systems that can be adapted to changing and individual needs. Thanks to economical lighting design, an extensive product range and the use of intelligent light management systems, RZB enable their customers to cope with these changes and thus ensures long-term flexibility.

- ✓ Straightforward extension of the lighting systems
- ✓ Creative freedom
- ✓ Reliability in future

## ⊕ RELIABILITY

We are your reliable partner. We support your project from the initial idea until its implementation and far beyond. Personally, passionately and individually. Thanks to excellent professional competence, top product quality and services such as lighting design, profitability analysis and commissioning, we cope with the high expectations of all parties involved in the planning process.

- ✓ Collection of BIM files
- ✓ Quick and easy installation
- ✓ Quality and long warranty periods

Fraport: Airport Frankfurt/Main

## WHAT DOES THIS MEAN?

For us, quality means not to make any compromises: our products are developed and manufactured with utmost care, and the quality of our support is considered above average. We are working accurately, responsibly and in a solution oriented way, and always in accordance with our guidelines SMART TECHNOLOGY and EXCELLENT DESIGN. Each process step is strictly controlled and continuously optimised along the entire value chain up to the after sales service.

This is the only way for us to be sure we are providing our customers and partners with the highest degree of efficiency, motivation, flexibility and reliability, and thus with a noticeable added value in every respect.

- ⊕ First class product quality
- ⊕ Made in Germany
- ⊕ Qualified support
- ⊕ Competent lighting design
- ⊕ Project-specific solutions
- ⊕ Extensive services
- ⊕ 5-year warranty
- ⊕ Financing

In-house tool construction

# FROM IDEA...

For us market observation, creativity and a real sense for future trends are a matter self-evidence. As the world becomes ever more digitised, intelligent luminaires and application-oriented, connected light management systems will play an increasingly important role.

We are working continuously on this – not only in our own laboratories and workshops, but also with external specialists from many different sectors..

TWINDOT® luminaire range

# ...TO PRODUCT

## SIMPLY THE BEST

Renowned internal and external designers create product series that meet the highest technological and physiological requirements for luminaires and light quality. Working together with our teams from construction, optical and electrical laboratories, as well as tool and prototype construction, we develop products with real added value in terms of design, energy efficiency, functionality, quality and digital networking..

Punch laser machines

# MADE IN BAMBERG

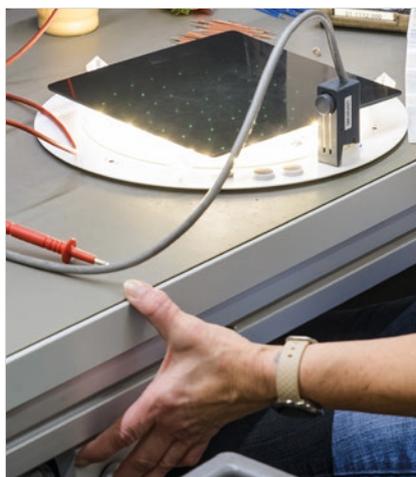

Powder-coating centre

In Bamberg, we have state-of-the-art, constantly expanding machinery as well as a team of qualified skilled workers for the realization and manufacture of our product ideas.

Because of our high vertical integration, the term industry 4.0 is not just a buzzword for us, but daily reality: staff, machines, installations, logistics and products communicate and cooperate with each other.

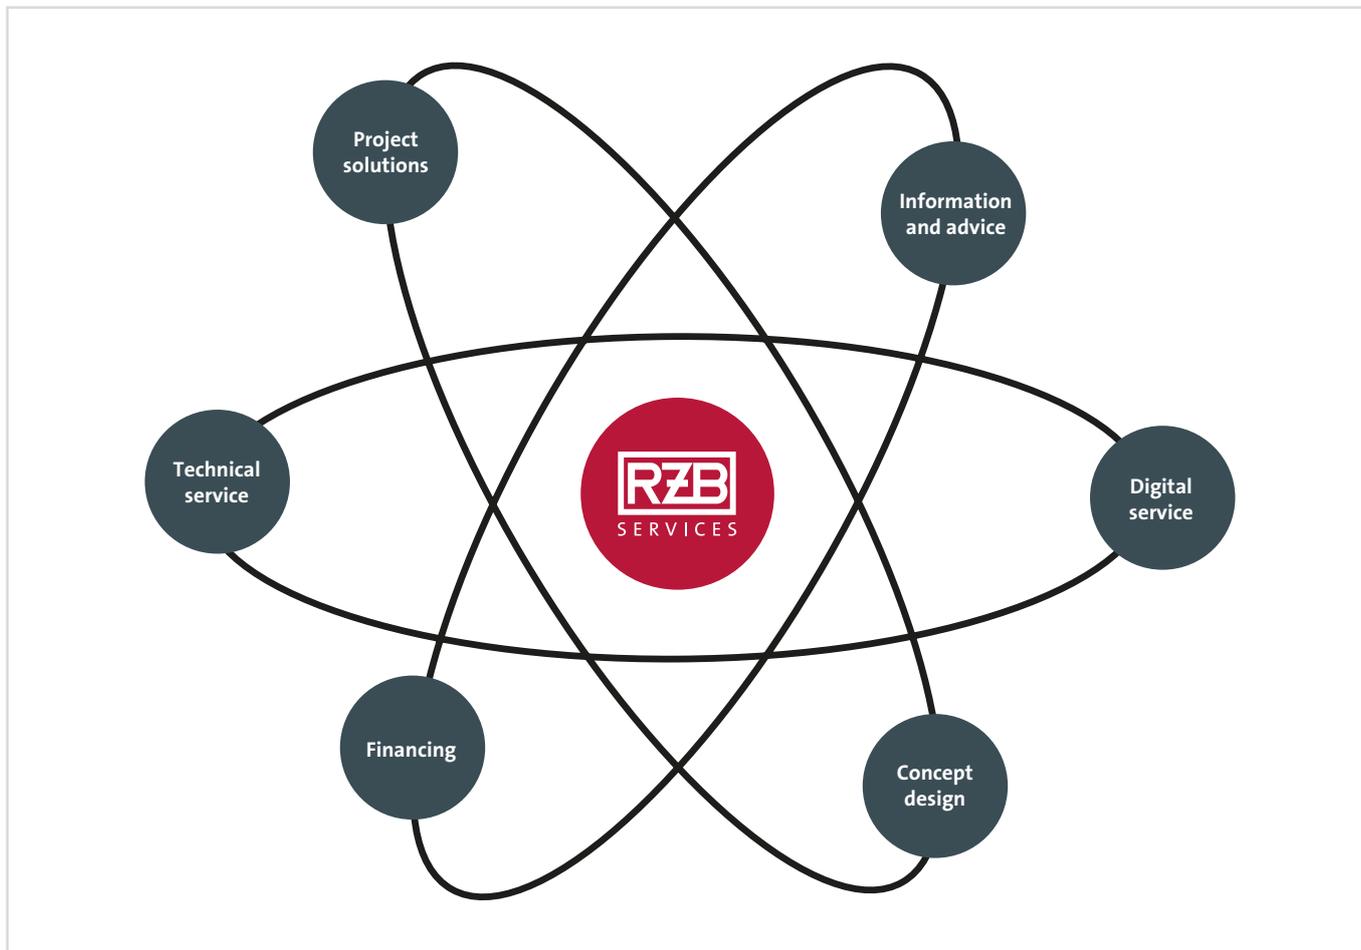

RZB logistics centre

# LOGISTICS

Fast deliveries are guaranteed by our new logistics centre, from where we send our products all over the world on time and even directly to building sites. This enables us to ensure the high quality of our products along the entire value chain and to grow together with our customers and partners.

RZB 360° services

# SERVICES

With RZB Lighting, you are choosing a partner who will take the stress out of the planning, control and operation of complex state-of-the-art lighting concepts. We are a trustworthy partner with a comprehensive view who will guide you carefully, quality-consciously and smoothly to a lighting solution tailored to your needs. We support you from consulting and planning to financing and commissioning and finally to continuous monitoring and optimisation over the entire life cycle of your light installation.

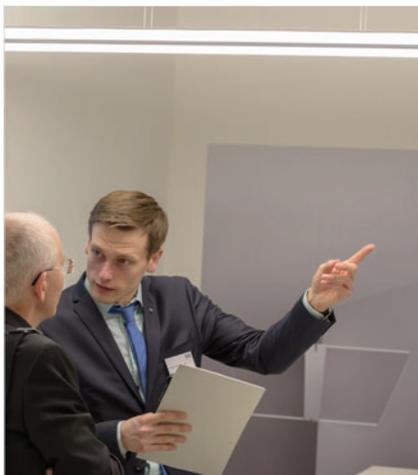

RZB's main exhibition stand at light+building, Frankfurt/Main

# EXPERIENCE LIGHT

It is our goal and success to inspire our customers! Visit us at one of our numerous trade fair happenings or come and experience one of the most extensive and constantly updated showrooms in the lighting industry at our headquarters in Bamberg. Be inspired here by our new products or attend one of our training events and workshops on everything there is to know about lighting for offices, industry, shops, outdoor installations and general purposes. Learn here more about the advantages of light management systems and the specifications of emergency lighting. We look forward to welcoming you!

Training at RZB

# PEOPLE

Work is impossible without the human factor, because it is the people who make the future. The basis of a good idea is a clever mind. Usually several, in fact. We rely on our committed, interdisciplinary teams, on the experience of our long-term employees as well as on the ideas and visions of our younger and newer colleagues. Personal contact and our customers' opinions are very important to us. They lead to innovations and partnerships for mutual enthusiasm.

Our training is legendary: every year our trainees achieve top results. With our advanced training opportunities and training courses, we ensure the highest level of quality and safety – for both our customers and our employees.
