

Surface-mounted luminaires

Overview

LL 1215

Why was the product developed?

Refurbishment booster: definition of a new standard of simplicity for the conversion from fluorescent luminaires to highly efficient LED technology in the industrial and commercial sector

Universal solution: development of an entirely versatile luminaire for any refurbishment project with state-of-the-art efficiency standards

Which problems are solved by the luminaire?

Reduced refurbishment effort: straightforward, time-saving 1:1 replacement

No compatibility stress: adaptable universal LED light strip

Product benefits

- + **Flexible:** 4-step adjustable luminous flux thanks to MultiLumen
- + **Fast:** fast installation with safety ropes and keyhole mounting
- + **Variable:** cable insertion on the face or at the rear
