

## Ceiling and wall luminaire

### Overview

## FLAT SLIM

### Why was the product developed?

**Aesthetics meets light:** luminaire design, uncompromisingly merging architecture and light in an inseparable unit

**Future-proof union:** combination of an extremely flat, timeless design with highest technical intelligence and networkability

**Versatility:** creation of a solution for indoors and outdoors, today as well as tomorrow

### Which problems are solved by the luminaire?

**Multifunction instead of system separation:** merges light quality, design and intelligent control; replaces additional emergency luminaires

**Efficiency instead of effort:** time and cost saving with regard to planning and installation through pooling of technical requirements and maximum design freedom

**Flexibility without obstacles:** enables subsequent adjustment of luminous flux and light colour without luminaire replacement

### Product benefits

- + **Smart multi-talent:** MultiLumen, MultiColour, homogeneous LED surface technology, optional sensor, DALI and Bluetooth® networking
- + **Maximum comfort:** fast and simple plug-and-play installation
- + **Made in Germany:** highest quality standards and components
