

Emergency lighting

GSUN 5 S

Why was the product developed?

Compact emergency luminaire: for escape route identification

Universal use: solid plastic luminaire with high demands on quality and robustness

Which problems are solved by the luminaire?

Less chaotic installation: thanks to generous cable chamber

Reduced planning effort: with universal installation options

Integrated design: emergency luminaire available in matching design

Product benefits

+ **Robust:** housing made of shockproof polycarbonate (PC); type of protection IP54

+ **Durable:** replaceable, recyclable components

+ **Straightforward:** suitable for through-wiring

+ **MULTIDIGIT air:** radio monitoring system for self-contained emergency luminaires with Bluetooth® control
