

## Spotlights

### Overview

Switch

### Accessories

Round clip with strain relief

## BSX 110

### Why was the product developed?

**Range of requirements:** targeted development to resolve the balancing act between industrial requirements (4000 K) and insect protection (3000 K)

### Which problems are solved by the luminaire?

**Response to high cost pressure:** solution for budget-critical projects without restriction of individuality

**Reduced planning complexity:** cover of various conditions regarding location thanks to MultiLumen, MultiColour and different housing sizes

### Product benefits

- + **Excellent efficiency:** up to 166 lm/W
- + **High degree of robustness:** impact protection in accordance with IK08 for complex areas of application
- + **Enormous resistance:** suitable for extreme conditions with ambient temperatures of up to +50 °C
