

Surface-mounted luminaires

Overview

Accessories

PLANIA

Why was the product developed?

Regulatory requirement: development of an economic bridge into the LED era as direct response to the EU-wide ban on fluorescent lamps

Intuitive modernisation: classic diffuser luminaire, claiming maximum simplicity for refurbishment projects

Which problems are solved by the luminaire?

Reduced effort: ends time-consuming and expensive refurbishment projects through seamless 1:1 replacement without construction-related difficulties

Profitability: low-maintenance and durable thanks to replaceable components

Product benefits

- + **Optimised for refurbishment:** perfect for 1:1 replacement
- + **Flexible:** 4-step adjustable luminous flux thanks to MultiLumen
- + **Many variations:** available versions with motion detector
