

Compact luminaires

SPARTACUS

Why was the product developed?

Practical relevance: development of a highly robust, cascadable 360° light distribution for harsh work environments (tunnels, dockyards etc.), which provides a maximum of work safety with minimal effort

Which problems are solved by the luminaire?

In line with requirements: suspended installation - also networked as light chain or free-standing on the ground

High light quality: homogeneous 360° light distribution

Product benefits

- + **Robust:** impact-resistant and non-breakable 2-component housing
- + **High-quality: homogeneous** 360 light distribution due to opal luminaire dome
- + **Versatile:** can be used suspended from the ceiling or free-standing on the ground
- + **Expansion options:** installation as light chain thanks to integrated socket
