

Recessed downlights

TAREK

Why was the product developed?

Refurbishment requirements: replacement for conventional QR-CB low-voltage lamps

Symbiosis: need for flexibility with at the same time focus on costs in the private and hospitality environment

Which problems are solved by the luminaire?

Well thought out compatibility: perfect fit with existing or new 68 mm standard holes

Optical demands: brilliant lighting with decorative character

Product benefits

- + **Maximally adaptable:** thanks to MultiColour function and three included glare rings (visible colours white, black, chrome)
- + **High type of protection:** IP 65 on the room side
- + **Fast installation:** simple installation including through-wiring
