Fabric lampshades for disc and quadra

MONDANA

Why was the product developed?

Functional symbiosis: aesthetic bridge between functional safety lighting and sophisticated luminaire design as "universal genie"

Consistent design: applications in the whole building - from staircase to living and public spaces

Hybrid requirements: merging of required standards and modern architectural requirements

Which problem is solved by the luminaire?

Design conflict solution: no annoying additional installations thanks to discreetly integrated escape route lighting

Reduced refurbishment effort: installation-friendly design enables quick 1:1 replacement

Future-proof: long-term reduction of waste and maintenance costs thanks to dismantlable structure and replaceable components

Product benefits

- + **Time booster:** intuitive turn-and-click system without tools for the fastest possible final installation
- + **High level of flexibility:** highly adaptable thanks to MultiLumen and MultiColour functions
- + **Intelligent networking:** via Bluetooth, DALI or Casambi
- + **Exceptionally durable:** high type of protection, PMMA without yellowing, quality Made in Germany
