

Large-area lights

Overview

POWERWING

Why was the product developed?

Light made to measure: a tool that flexibly adapts to the building site

Maximum functionality: vision of combining extreme brightness and filigree adjustment in a robust cylinder

Which problems are solved by the luminaire?

Less frustration: individually rotatable modules optimally illuminate every dark corner

Reduced transport effort: replaces multiple individual spotlights with a compact, portable powerpackage

Time booster: simple and lighting fast intallation

Product benefits

- + **Flexible:** four individual modules, can be switched on and off separately, dimmable as well as individually adjustable
- + **Versatile:** free-standing on the ground, can be used on a tripod and suspended
- + **High-performance:** up to 150,000 lm luminous flux, robust thanks to type of protection IP65

H 550, 750 mm
