

Recessed luminaires

Overview

Accessories

Surface-mounted housing

Recessed frame

Seal

Through-wiring box

HF motion detector for recessed mounting

PARLEDO R

Why was the product developed?

Dual solution: an all-rounder for healthcare and office, combining highest functional demands

Highest light quality: complying with standards in accordance with DIN EN 12464 (RUG ≤ 19 , CRI > 90) – ideal for treatment rooms and computer workstations

Which problem is solved by the luminaire?

Combating visual fatigue: solves the issue of faulty contrasts and glare (RUG ≤ 19); prevents a drop in concentration in the office and misdiagnoses in the treatment room

Genuine result: excellent colour authenticity with CRI > 90 – critical for medical checks, cosmetic applications and ergonomic work

Matching hygiene requirements: simplified cleaning with a smooth diffuser on room side

Less complex planning: a unique solution meets requirements from two areas of application

Product benefits

- + **Flexibility meets precision:** MultiLumen + MultiColour, light colour 940 suitable for medical applications in accordance with the Cyanosis Observation Index (COI < 3.3)
- + **Durable robustness:** NEW with 100000 h (L80) LED rated life, IP 54 type of protection on room side
- + **Fast installation:** thought-out system including through-wiring
- + **Matching accessories:** closed-cell silicone foam seal to prevent the spread of germs and viruses
