#### Note on available fabric colours:

RZB is committed to keep the colour code listings in the sales documents and the sample colour charts of the more than 40 different colours up to date at all times. The colours currently available are determined by the fabric manufacturers, who make changes to their range of fabrics at short notice from time to time. As a luminaire manufacturer, RZB unfortunately has only limited influence on this.

Our fabric shade luminaires are individually hand-crafted in Germany to order and are therefore dependent on the current supply situation of the fabrics. As a result, it can occasionally happen that some colours are not available. Your sales contact will be happy to provide information about the colours of our fabric shade luminaires that are available on a daily basis.
