

Surface-mounted luminaires

Overview

TRIONA

Why was the product developed?

Symbiosis: ultimate "light tool" with sophisticated design, high functionality and maximum flexibility

Maximum customisable individuality: definition of new standards with regard to visual function, biological effect and emotional light quality

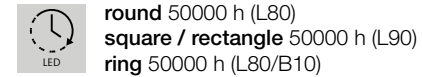

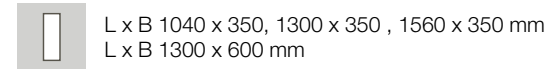

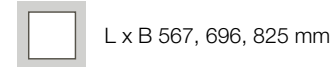

Which problem is solved by the luminaire?

Support instead of glare: replaces rigid, tiring lighting with glare-free, standard light for workstations

Vitality booster: versions with health-promoting human centric lighting to increase wellbeing

Product benefits

- + **Versatile:** ultra-flat 50 mm aluminium profile with large installation type and colour selection
- + **Smart:** networking via Casambi
- + **Sophisticated:** high-quality PMMA diffusers, separately adjustable direct-indirect light emission, modular with replaceable components
